FIRE

RESCUE

It is a 10 week class held at the fire department, which will give you a better understanding of what your firefighters do on a daily basis to mitigate emergency situations. It will give you the opportunity to experience what it is like to wear a firefighter's protective clothing, pull fire hose off the truck and flow water, search for victims in a limited visibility environment, and obtain an American Heart Association CPR certification. Some of the classes will involve moderate physical activity, such as lifting up to 30 pounds, and managing a fire hose that is flowing water. Classes will be on Tuesday nights from 6:00 PM – 9:00 PM. The class will be limited to the first 15 qualified applicants with a minimum age of 18. Call now, or come by and pick up an application today to reserve your position as the class will fill up quickly.
